## About Me

An enthusiast on technology, My first thought was to what can be done to fulfill my inner needs to be tech savvy.Fueled by science and technology reality of the future ,I needed to do something to be part of this realm.

The coding classes in BROADWAY, was the portal where I could go to my destination.From the fundamentals of Frontend to the sophisticated communication to the Backend, Web Developement journey has become tremendously satisfying.

And here I am applying for the intern.Things are getting better and better everyday ,What else one can ask for.

## Skills

- WEB DESIGN  
FLEX, GRID
- MERN STACK
- REDUX TOOLKIT
- TAILWIND  
CSS
- REACT  
BOOTSTRAP
- SHADCN

## languages

English

French

## PROJECTS

### E-COMMERCE WEBSITE

#### GROUP PROJECT

In this group project, I got the first hand experience on the technology stack **MONGODB**, **EXPRESS**, **REACT** and **NODE**. The project was lead by the experienced instructor of BROADWAY INFOSYS .After the completion of the project ,there was significant boost on my confidence level.

### BOOK STORE APP

#### ASSIGNMENT PROJECT

This was my assignment project to make sure that I knew the technology stack.With the help of **POSTMAN** and **CRUD** operations, by this time I was well versed on **BACKEND** as well as **FRONTEND**.

### FOOD APP

#### ENTERPRISE LEVEL PROJECT

Sharpening my skills, I got in to the **CONTEXT API** to manage the **GLOBAL STATE**.As I had done other practice projects using **REACT REDUX**, managing the global state with REACT'S **own library** was easiser.I have even deployed this project in render.Here I learnt about payment gateway **STRIPE**, and **AUTH0** which provides seamless and secure login experience . Here is the link of my project - <https://mern-food-ordering-app-frontend-yja2.onrender.com>

### ECOMMERCE APP

#### JOB LANDING PROJECT

In this solo project, I used the technology stack **MERN**, **REDUX TOOLKIT**,**TAILWIND** and **SHADCN** .Shadcn **UI** offers a powerful theming system that allows developer to easily customize the look and feel of applications.
